PROFILE

Full-stack web developer with 6+ years building web, desktop, and cloud platforms, from highly scalable back-end APIs to user focused, responsive, and accessible front-ends. Comfortable owning features end to end — from design and implementation through to QA and deployment.

EXPERIENCE

Full-stack Web Developer (Freelance) · Self-employed — May 2024 – Oct. 2026

Independent consultant delivering client work across full-stack web and game development. Worked closely with clients from their initial idea to deployment and publishing. Understanding their requirements and target audience to deliver the most robust and cost efficient solutions.

- Built and maintained full-stack web apps, personal and business websites, online services, business performance and accounting tools.
- Designeduser accessible, responsive, and beautiful user interfaces.
- Maintained server infrastructure both on premise and in the cloud, databases, and CI/CD pipelines.

Development Consultant (Contract) · Magna Ludum Creatives LTD (MLC) — Jun. 2022 – Jan. 2025

Contract consultant for clients shipping mobile, desktop, 2D and 3D titles in Unity and Unreal. Delivered gameplay design and development, UI/UX, bug fixing, and QA.

- Designed and implemented performant user interfaces that don't get in the way of gameplay experience.
- Optimised UI implementations averaging 10x performance improvement.
- Started providing programming services to MLC clients as there was no such role prior to me joining.
- Worked with over 15 clients over three years, ranging from few weeks to several years per project.

Senior Programmer (Full time) · Virtuverse A.B. — Feb. 2019 – May 2024

Grew from junior developer to senior developer and project manager on a massively-multiplayer role-playing game's live services, also representing the studio at various conferences around the world.

- Built reliable back-end APIs serving 7,000 active users at 100% uptime.
- Maintained the company's website, supported users with account issues.
- Took ownership of major development decisions including engine and tooling upgrades.
- Managed a team of over 20 developers, designers, and artists, deciding deliverables, and deadlines.
- Hired and mentored new developers, getting them shipping features quickly.

EDUCATION

Studied Software Technology · Linnaeus University — 2021 – 2023

Left the programme to commit fully to my development role.

TECHNICAL SKILLS

Back-end & Cloud	Node.js, .NET, AWS, GCP, Docker
Languages	JavaScript, TypeScript, C#, SQL, C++, Java
Data	MySQL, PostgreSQL, MSSQL, Redis, DynamoDB, S3
Tools & AI	Git, Perforce, Figma, OpenCode, ComfyUI
